Lice Off™ has given thousands of families over the last ten years the peace of mind that comes from knowing they're using a safe yet effective non-toxic head lice treatment and preventative on their children. A non-toxic, all-natural, concentrated blend of Eucalyptus, Lavender, Tea Tree, Anise and other 100% pure essential oils, Lice Off naturally treats and prevents resistant lice and further infestation without using any potentially harmful pesticides or pediculicides. It is a must for families that prefer a safer, more natural way to get rid of one of life's stubborn little bugs.

How does one use Lice Off™?

Initial Treatment: Add 20 drops of Lice Off!™ to a half cup of unscented or mildly scented conditioner. Mix well and apply liberally to the hair and scalp, taking care to massage down to the base of the hair shafts. **Wait 10 minutes to allow product to work.** Straighten any tangles with a wide-toothed comb, then thoroughly through all the hair and across the entire scalp with a high-quality stainless-steel nit comb such as the TermiNITor® Lice Comb. Combing out lice, eggs, and nits is essential for complete lice elimination. Wipe excess conditioner containing lice and eggs onto a paper towel or toilet paper and dispose of appropriately. Wash combs thoroughly and disinfect with alcohol. **Repeat treatment in 7 – 10 days to ensure efficacy and prevent re-infestation.**

Preventative Treatment:

• Add 15-20 drops of Lice Off per ounce to a mild and unscented shampoo and conditioner. Shampoo and condition as usual and use daily to avoid future head lice infestations.

Lice Off™ Concentrate
